

Filing Vice

The filing vice is an insert that fits into your post or bench vice. As the name suggests, it holds the stock at an angle, allowing easier filing. The Cloverdale Forge filing vice allows the user to grip multiple thicknesses of material and tapers, adding versatility to your shop bench.

Filing Vice: \$172 CAD

Blacksmith Guillotine

The Cloverdale Forge guillotine provides an extra hand when steel is hot! The top die can hover in an open position, with an adjustable height of up to two inches between the lower frame. Allowing users to hit the perfect spot. Adjustable upper retainer plates accommodate tooling 2” wide by 1/2”, 3/4”, and 1” without shims. Kit includes all the pieces seen in the exploded diagram. The included mild steel tool blank, size 2” x 3/4” x 8”, is ready to be shaped. Due to the uniqueness of anvils, a hardie stem is not included.

Guillotine Kit: \$120 CAD

Additional 4140 Tooling Blank: \$29.00 CAD

Additional Mild Steel Blanks: \$ 15.00 CAD

*Due to weight considerations, if more than four supplementary blanks are ordered, your purchase will be split into two shipments

Adjustable Bending Fork

Blacksmiths typically need various bending fork sizes for shop work, including those that will work within a tight radius and forks which move larger stock sizes. The adjustable bending fork provides multiple tools in one, replacing the need to buy or make multiple forks for your toolbox.

Adjustable Bending Fork: \$89 CAD

Hot Squares

Hot Square sets allow users to check their work for squareness efficiently and safely while working with hot material. The square handles are approximately one foot long and come in 45°, 90°, and 120° degree angles. The 45 degrees also included a removable center finder for up to 10”.

Set of 3: \$90 CAD

Sold Separately:

45°/Center finder: \$40 CAD

90°: \$30 CAD

120°: \$30 CAD
